Patient Information

Client: Frank, Kay Patient Name: Honor Reg. Name: Honor Odvazny PennHIP Num: 114890 Species: Canine Date of Birth: 18 Mar 2015 Sex: Female Date of Study: 24 Jan 2018 Date of Report: 24 Jan 2018	Tattoo Num: Patient ID: 3178222M Registration Num: DN42499906 Microchip Num: 981020013387864 Breed: GERMAN SHEPHERD Age: 34 months Weight: 66.1 lbs/30 kgs Date Submitted: 24 Jan 2018
--	---

Findings

Distraction Index (DI):Right DI = 0.28, Left DI = 0.25.
Osteoarthritis (OA):No radiographic evidence of OA for either hip.
Cavitation/Other Findings:None.

Interpretation

Distraction Index (DI):The laxity ranking is based on the hip with the greater laxity (larger DI). In this case the DI used is 0.28.
OA Risk Category:The DI is less than or equal to 0.30. This patient is at minimal risk for hip OA.
Distraction Index Chart:

Breed Statistics:This interpretation is based on a cross-section of 14262 canine patients of the GERMAN SHEPHERD breed in the AIS PennHIP database. The gray strip represents the central 90% range of DIs (0.25 - 0.69) for the breed. The breed average DI is 0.42 (solid square). The patient DI is the solid circle (0.28).

Summary:The degree of laxity (DI = 0.28) falls within the central 90% range of DIs for the breed. This amount of hip laxity places hip at a minimal risk to develop hip OA. No radiographic evidence of OA for either hip.

Interpretation and Recommendations:No OA/Minimal Risk: Unlikely to show radiographic evidence of hip OA; even more unlikely to develop clinical signs of hip dysplasia. **Recommendations:** Normal to strenuous activity is permitted. Keep lean; try to maintain BCS at 5/9 for a longer and healthier life.

Breeding Recommendations: Please Consult the PennHIP Manual.
